

2 x 4 Relationship Building Calendar

Teacher _____ Grade/Course: _____ Period: _____

Directions: Please spend two minutes a day with four different students talking to them as individuals about their lives. Utilize this chart to list the names of students to meet with each day. Use these conversations to better get to know each child and for them to better get to know you. Focus conversation around out of school activities. At the end of the calendar, reflect upon what has been learned about each student and how that information can be used to provide additional support in the classroom.
